Path and Movement on a coordinate plane

The image shows a coordinate plane with a path starting at the origin (0,0) and moving to the point (12, 1). The path is a series of connected line segments. The x-axis is labeled from 1 to 12, and the y-axis is labeled from 1 to 12. The path starts at (0,0), moves right to (12,0), then up to (12,1). The text "Path and Movement on a coordinate plane" is at the top. Below the path, there are two sets of boxes for movement instructions: a top row with one grey box and three white boxes, and a bottom row with one white box and three grey boxes. A blue line connects the origin to the point (12,1). The text "left arrow" is at the bottom right.
